Telematic Systems also find use in other segments like manufacturing, retail and data centers. The Company intends to target these markets. Further the home / small user segment which the Company pioneered in 1995 has once again revived. This has presented renewed opportunity.

### **OUTLOOK ON THREATS, RISK, AND CONCERNS**

The opening of the Indian market and removal of trade barriers, manufacturing activities are under tremendous pressure from cheaper finished goods imported into the country. This is particularly so in the electronic industry. Due to constant downward pressure on prices and rapid change in technology the Company must keep it's inventories at near zero levels. The Company will need to upgrade it's technology continuously. Further technology and development oriented skills are in acute short supply, with a concomitant rise in manpower costs. Many of the Company's competitors have significantly greater financial resources and low cost Chinese manufacturing bases. The Company must ensure cost effective operations to compete successfully with them. The arrival of major international brands in India has made the market ever more competitive. Important segments of the Company's client base are facing pressure due to exposure to the US markets, resulting in several projects being postponed.
